

## Liver Failure/Transplant Studies - As of April 2008

CellCept (mycophenolate mofetil, MMF) Maintenance Immunosuppression in Liver Transplant Recipients with Long-term Follow-up Post-transplantation for non-Autoimmune Liver Disease - A Prospective, Randomized, Multicenter Trial. (Roche Liver)

### Disclaimer

The information provided here is for general use only. The final determination of eligibility to participate in any clinical trial requires that the principal investigator or his/her designate make a very patient-specific, case-by-case assessment of multiple criteria that are too numerous to list here. Additional information may be obtained from the contact person listed for the specific trial or by calling 210-575-4238.
